## **Fast Duplicate File Finder Professional Crack**

This is a tool designed to find and remove duplicate files on your home and corporate network when no software is installed on another computer. Fast byte search and . The tool allows you to check the file for matches by several parameters at once. If necessary, you can check for duplicates and more than one file at the same time. The search result displays the found duplicates. If at the first start several duplicates were found, but later they were not found, then you can switch to the "only marked" mode. You can search for duplicates not only by file name, but also by size and other values. You can select the files you want to delete.
